Antioch Has Biggest "4th" in Many Years

Holiday Week-end Draws Thousands of Visitors to Lake Region

The biggest Fourth of July Antioch has known since 1929, if not the biggest ever, drew thousands of visitors to the lake region Thursday, Friday, Saturday and Sunday.

It was a "safe and sane" Fourth, too, for in spite of the crowds there were no accidents, and the only call the Antioch rescue squad received during the entire week-end was to another community.

Resorts Crowded

Resorts and restaurants were crowded, and Antioch's main business section was a veritable beehive of activity.

Picnics and lakes throughout the Antioch area drew large quotas of summer visitors.

Special entertainment was featured at many of the resorts, and there were numerous picnics and outings.

In Antioch, the Fourth of July program was climaxed with dancing on an outdoor floor in the evening, and a beautiful display of fireworks set off from the hill behind the village park.

Kenosha County Fair August 8, 9, 10 to Have Three Parades

Show Ring Is Being Provided for Horse Show at Event in Wilmot

The Kenosha County Fair board met at the Wilmot school Monday evening to plan for the fair to be held at Wilmot Friday, Saturday and Sunday August 8, 9 and 10. The horse show will be held in connection with the fair, as usual, on each evening at 8 o'clock. A ring has been provided this year and there will be much better facilities for showing the horses than on the straightaway used in former years.

Three parades have been organized. The main parade on opening day through the village streets; a pet, doll buggy, decorated bicycles and wagons for the children the second day at the fair grounds and the parade of prize winning live stock on the last day, around the grounds.

The committee in charge of free acts has secured very wonderful performances for 45 minutes each afternoon and evening with a complete change of program for Sunday. Dancing will be provided in the evening.

All the 4-H clubs in the county are preparing for exhibits. Livestock, poultry, grain growing projects, garden projects, handicraft, canning, 4-H food and nutrition, home furnishing, and the correct dress contest.

The women's department will again have displays of all forms of sewing, garments, amateur photography, amateur flower entries, cut flowers, and a culinary department.

There will be cattle and farm crops departments aside from the 4-H club exhibits.

Premium lists will be distributed at the beginning of next week.

ANTIOCH RESCUE SQUAD WILL BE ENLARGED SOON

Enlargement of the Antioch rescue squad to meet increased demands on its time and services, at less personal sacrifice to each of the members, is being planned.

According to its officers, Herman Hothek, captain, and Herman Rosing, first lieutenant, the membership of the squad will be increased to 15 active and 10 reserve members, as quickly as new men can be trained. The present membership is 10 men.

Present members of the squad are all members of the fire department. However, under plans now being made, it will not be necessary for candidates to be firemen.

Maintenance and running expenses of the rescue squad are paid by the village of Antioch, which, with the Antioch fire department, acts as joint sponsor. Equipment has been purchased mainly through donations from residents of the lake region and other persons and organizations interested in safety work, although some of the equipment used is furnished by the fire department and other items have been purchased from village funds.

Classes in Red Cross first aid work will be started soon for the new candidates.

Cannon Cracker Tossed by Passing Autoist Endangers Village Marshal's Eyesight

William Thieman, Antioch village marshal, has been at Victory Memorial hospital receiving treatment for injuries to an eye, suffered when a careless prankster tossed a cannon cracker from a passing car as Thieman was directing traffic on Main street during the Fourth of July week-end.

Both the upper and lower lids of his eye were burned, but it is believed that there will be no permanent injuries, and he is expected home the latter part of this week.

Thieman had just finished warning a group of youths on the sidewalks against the dangers of throwing firecrackers around, and had stepped into the street to direct traffic when the cannon cracker was tossed from a passing car.

Speaking of the mishap, Thieman, who is around six feet in height, said, "It is a good thing it was not a child or a youngster who was standing there, since the burns would probably have caused much more serious damage in that case."

Villa Rica Club Has 50th Anniversary

The Villa Rica Club of Loon Lake, which is celebrating its fiftieth anniversary this year, has issued a memorial booklet dedicated to "the original and subsequent members of our beloved club."

"Hearing on its cover contrasting pictures of an old-fashioned carriage and a modern airplane, together with the dates of 1891 and 1941, the booklet contains the history of the Villa Rica organization.

The club originated when a group of men who for years were vacationists each summer at Lake Villa purchased 55 acres of land from Michael Sheehan. The first meeting of the club was held Jan. 9, 1891, in the home of E. C. Rice, 62 Wabash avenue, Chicago. Present were Messrs. Hollett, Hatch, Groth, Cone, Thornton, Stoddard, Lane, Middendorf and Reid.

The first settlers in the community were the Scovilles and the Groths. The development of the community was retarded by the depression of the 1890's, but its development was spurred by purchase by the Holtz brothers of undeveloped property in the vicinity. Memories of early summer residents include recollections of all-day horse and buggy trips from Chicago, and half-day shopping tours to Antioch behind the Holtz' temperamental driving horse, Dolly.

With the coming of the "gas buggy" the club grew rapidly. Cyclones at 2 and 5 o'clock the afternoon of Monday, May 9, 1927, caused the death of one resident, Mr. Hinkel, and considerable property damage in the vicinity.

In spite of all drawbacks, however, the Villa Rica settlement prospered, and is today a beautiful and thriving summer community.

Von Schacht to Meet Nango Singh Friday

Friedrich von Schacht, towering teuton, has been signed to meet Nango Singh Friday night, July 11, at Peg's Grayslake arena, located at routes 34 and 120. Singh beat the popular Karol Krauser in a furious encounter the 4th of July night to chalk up his third win at Grayslake. The wily Hindu made use of his famous cobra lock to dispose of Krauser. The Polish boy seemed to have the best of the match, but at the thirty-five minute mark Singh found an opening, and clamped on the neck lock, leaving Krauser in a semi-conscious condition. In bringing Von Schacht back, the promoters believe they have the man to tame the cagey Indian. The powerful German is one of the roughest wrestlers in the game today and his superior size will make it difficult for Singh to get the right leverage for his cobra lock.

The semi-windup will find the classy Michael Leoni, who has won 101 mat encounters in a row, exchanging slaps with Pete Schuh. Schuh has taken off thirty pounds since his last bout at Peg's, and his right arm, recently injured in an automobile accident is as good as new. Two other thirty-minute matches will complete the card.

Several from Antioch Attend Northwestern U.

Included among the 4,500 summer school students at Northwestern university in Evanston are:

Antioch: Mary Jeanne Casey, Eileen Osmond Lewin, Wallace Edward McIntyre, Copley A. Phillips, Rutha Alice Smith, Hans Von Holwege, Grayslake: Frank William Jansen, Gurnee: George William Wakefield, Ingleside: Cora Alvina Spooner, Libertyville: Mary Jeanne Casey, Janet Lucille Doerschuk, William B. Ferry, Dolores Anne Fitzgibbons, Albert Kroll, Mae Elizabeth Studer, Lake Zurich: Melvin Rowland Eide, Maybelle Kohl.

Antioch's Budget For Year Set at \$24,405 by Council

Slight Increase Is Mainly Due to Contemplated Improvements

Due to contemplated improvements and preparation for growth of the community, Antioch's annual appropriation shows an increase of \$4,975 over last year's appropriation.

It will cost \$24,405 to run the village this coming year, according to the village council's appropriation ordinance, published elsewhere in this issue of the Antioch News.

The general fund has been cut from \$4,900 to \$4,155. The fire department allotment has been cut from \$2,150 to \$1,725.

Sewer and water appropriations are approximately the same. They were \$430 last year. This year they are \$435.

To Improve Streets

Street and alley allowance was raised from \$3,200 last year to \$4,800 this year. The main difference is caused by contemplated expenditures for improvements.

The police department fund was \$1,350 last year and will be raised to \$2,800 even, due mainly to the plans for purchase of new equipment, including a squad car. The street lighting fund remains the same, since while rates have been cut there are now more lights and they are allowed to burn longer.

Contingent and bonded indebtedness funds remain approximately the same.

4-H Boys Go to Rockford, Bloomington Meetings

Philip Burke and Robert Carlson have been representing the Antioch Boys' 4-H club at the district 4-H camp at Camp Rotary, Rockford, Ill., July 3 to 6.

Wayne Drom and Ray Wells have been chosen to go to the leadership camp at Bloomington, July 28-August 2, because of their outstanding projects. They will represent the Lake County 4-H. Only two representatives are chosen from each county each year, and this year both representatives are from Antioch.

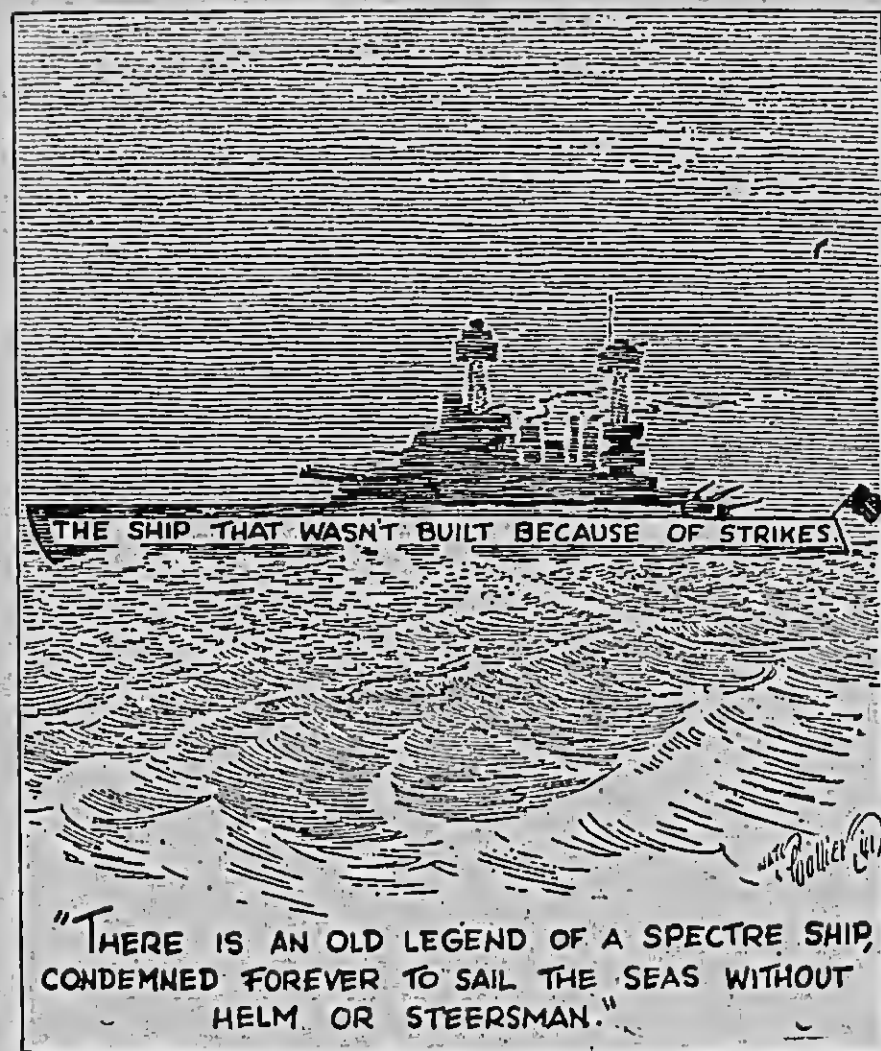

The 4-H softball team has been active. Games played so far this season, and the scores, were:

Lake Zurich at Antioch, 3-18; Lake Zurich at Lake Zurich, 4-11; Antioch at Wauconda, 14-4.

O. E. S. TO SPONSOR DESSERT LUNCHEON

Members of the Antioch Eastern Star chapter, under the general chairmanship of Mrs. Martha Hunter, worthy matron, are preparing to sponsor a dessert luncheon at Antioch High school Wednesday, July 16, at 1:30 p. m. daylight saving time. Cards will be played afterward.

"THE FLYING DUTCHMAN"

Legion Plans Summer Fete

Fifteenth Annual Festival Will Be Staged July 18-20

Antioch post of the American Legion will sponsor its fifteenth annual summer festival Friday, Saturday and Sunday, July 18, 19 and 20.

The festival will be held in the village park on Main street.

Rides, games and other amusements for young and old will be provided. On Sunday afternoon a patriotic parade will be staged.

Featured in Skinner's rides, from Crystal Lake, which have been secured for the festival, will be a merry-go-round, a ferris wheel and a chair-golplane.

Members of the American Legion auxiliary will operate one of the concessions. The Sons of the Legion will also have a stand. There will be a refreshment tent on the grounds.

More than 30 American Legion posts and their officials have been invited to attend the festival.

On the general committee are Roman Vos, Otto S. Klass, John Horan, J. Harry Messing and Walter Hills.

Girl Scouts Fete Mothers at Tea

Decorations were in red, white and blue for the Mother and Daughter tea at which members of the Antioch Girl Scout troop entertained their mothers Wednesday afternoon at 2 o'clock at the Antioch Methodist church. A centerpiece of snapdragons, daisies and other flowers of the season carried out the red, white and blue color scheme at the tea table. It was flanked with candles in cellophane decorated holders.

The program included a talk by Joan Hughes, in which she explained how she won her tenderfoot badge by learning the Girl Scout laws, slogan and promises; Joan Felt told how second class badges are won by learning how to pack bags, learning the rules of the road, and participating in games, sports and nature study.

A piano solo was given by Barbara Horton. Jane Nelson told how Girl Scouts can earn ten badges, and explained some of the Scouts' out-of-doors studies.

Joan Felt and Vida Haley gave a tap dance. Following this, Barbara Horton also gave a talk on badges, and told of Scouts' studies of plants and their medicinal uses.

Nature Has Own "Fourth" with Aurora Display

Putting to shame the man-made fireworks of the "Glorious Fourth" was an exceptionally beautiful display of the aurora borealis or northern lights several hours later.

Commencing around 2 a. m., the northern lights spread until they covered more than half the sky with flickering gold and green-gold streamers, which were seen and admired by many late-stayers-outers in the Antioch region.

There was also an impressive display of northern lights the preceding evening.

Rescuers Save Four When Waves Capsize Boat

Two in Party of Chicagoans Drown at Long Lake Sunday

The Antioch rescue squad aided in reviving four victims of a boating accident at Long lake in which two persons lost their lives Sunday. Ward Abt, son of the late Robert C. Abt of Antioch, played an important part in the rescue. Abt, who was swimming nearby, kept two of the victims afloat until another swimmer could help take them ashore.

The accident is said to have occurred when waves from speed boats capsize a heavily laden boat in which six Chicagoans were crossing from the north to the west shore of the lake.

The dead are Harry Alexander, 42, and Dolores Zichmiller, 10. Alexander had been brought to shore quickly after the accident, but his heart is believed to have given out after he had begun to show signs of reviving. Dolores Zichmiller had been in the water 10 or 15 minutes before she could be located.

Those saved were Virginia Zichmiller, younger sister of Dolores, William Sprandel, 14, and his sister, Beverly, 10, and Vincent Terck, 40.

N. J. Hill, a Chicagoan who has a summer cottage at Long Lake, rescued Terck and Virginia Zichmiller. Hill had warned Alexander that the boat was dangerously overloaded, and was watching its progress. When it foundered he went to the rescue in a rowboat. J. E. Billa, Chicago, brought Beverly Sprandel to shore in a motor boat. Calls were put in to the Round Lake rescue squad, which was first on the scene; the Antioch rescue squad, which made the run in nine minutes; a squad from Fox Lake, headed by Fire Chief Robert Burleigh, and for physicians. Dolores Zichmiller's body was recovered after 15 minutes from weeds in which it had become enmeshed under several feet of water.

Joseph Sprahalski, 22, of Cicero, was revived by Dr. A. J. Ross of Wauconda, after Sprahalski had fallen from his boat, and was pulled from the water by a companion at Bangs lake.

Efforts continue to recover the body of James Clark, 21, who is believed to have been drowned at Round Lake Sunday.

Two lost their lives in Kenosha county.

Carl E. Gauger, 21, Chicago, was drowned Saturday afternoon at Padlock's lake, when he attempted to swim out to a boat.

John Dziechanski, 42, of Chicago, drowned Saturday night at Silver lake. His body was discovered by motorists, in a boat where it had been placed by his companion, John Chrobik, after Chrobik had pulled him from the water. Chrobik, who was discovered by sheriff's deputies asleep at a nearby resort where the two had been staying, he admitted that the two had had a few drinks and stated that he believed his companion died after pulling him from the water, but had gone to his room to change his clothes, intending to report the accident, and had instead fallen asleep.

Waukegan Legion Plans Tour for Service Men

Jack Tar will meet his good neighbor, Buck Private, on the latter's own camping grounds next Sunday, July 13, when 45 sailors from the U. S. Naval Training Station at Great Lakes will invade Fort Sheridan, under the command of Homer Dahlinger, Post No. 281, American Legion of Waukegan.

Arranged by the Illinois WPA Defense Area Representatives, the sailors will be transported in ten automobiles, driven by Legionnaires, to the fort where the soldiers will show them what makes the Army click, and may be introduce them to their girl visitors of the day.

The cavalcade will then move on to Kenilworth and the grave of the poet, Eugene Field, where poems of the author will be read. Then to Lake Forest, and dinner as guests of the Episcopal Church of the Holy Spirit. The tour will start at 1:30 p. m., arriving at Fort Sheridan about 1:45 p. m. The men will be driven back to the training station after dinner.

This will be the first of a series of Sunday outings being arranged by the WPA Recreation Service for sailors and soldiers, in which the residents of the North Shore suburbs are co-operating enthusiastically.

Mr. and Mrs. Eddie Van Patten, Mrs. William Gerber of Camp Forrest, Tullahoma, Tenn., spent the latter part of the week with relatives in and near Antioch. Mr. and Mrs. Van Patten were guests of Eddie's parents, Mr. and Mrs. L. R. Van Patten and Mrs. Gerber visited with her parents, Mr. and Mrs. Wilbur Hunter of Pikeville.

Playing Politics

Whatever may have been Senator Pepper's motive in lobbying with the War Department in behalf of asphalt for runways of Eglin Field, Fla., that episode is a sad commentary on his devotion to the cause of national defense. Regardless of how brilliantly his patriotism may burn on the Senate floor, the Senator was not above using his political influence to have the best judgment of the Air Corps overruled. In the Senate he helped to vote billions for national defense. On the side, according to Col. Frank M. Kennedy, head of the Air Corps buildings and grounds division, he accompanied contractors to the War Department to plead for the use of a product in which, presumably, his friends or supporters were interested.

We do not know whether it was Mr. Pepper's high pressure salesmanship which caused the Engineer Corps to overrule the Air Corps and order asphalt where concrete is customarily used. But we do know that it is a vicious practice for legislators to bring pressure upon administrative agencies to secure preferential treatment for products in which they or their constituents are interested. That practice becomes doubly reprehensible when it interferes with the judgment of officials charged with defense of the Nation. And if the Engineer Corps yielded to his effort to play politics with defense, it must share the mark of discredit with Senator Pepper.

Why Imitate Failure?

For nearly a quarter of a century, smart boys and girls who write books and deliver lectures, have been telling us of the great things to be expected from Soviet Russia. It was to be a worker's paradise. The capitalist system was destroyed. The government became supreme, and the individual was a pawn of the state.

A quarter of a century is a long time. But if one can believe the record, results in Russia have been in reverse, rather than forward.

The principal idea of Russian communism is that government should own all means of production and distribution—all natural resources were taken from private enterprise and left to government to develop. Russia seized everything from private individuals. What has been the result? Want, starvation, stagnation, terrorism.

And, yet, in our own country, with Russia as an example to go by, we have those who would do, slyly

and gradually, what was done in Russia ruthlessly and at one bold stroke. Government ownership, instead of fair and reasonable government regulation of private activities, is being promoted here in a subtle manner by tying up natural resources to the exclusion of their development by private enterprise. It's all done in the name of the dear people, the same as it was done in Russia. As officialism gains control, individual opportunity disappears.

Russia had its five-year and its ten-year program of electric power socialization. Witness the progress that same kind of a program has made in this country. Apparently the field is being prepared to widen the net to include other natural resource industries.

If we are to learn anything from the object lesson of Russia, it should be to scrutinize all the laws of this land and discover to what extent our country is being influenced by Soviet ideas.

Can't Legislate Progress

Progress is not created by statute. It comes from the vision and tireless work of individuals.

The American system of medical care is a case in point. It is the most far-reaching and the most efficient system in the world. No one in this nation of three million square miles need suffer from medical neglect. Within a few miles anyone can find a miracle—the modern hospital. There, within four walls, is condensed the knowledge and equipment of centuries—centuries of tireless, often hazardous research by thousands upon thousands of men and women who spent their lives to relieve pain and suffering.

Laws did not create the skill of the modern physicians, laws did not create the knowledge to cure disease. These things came only through the striving of individuals to make a better world.

Laws have a right and proper place in the regulation of progress. But never for a moment believe that laws, in themselves, are progress.

Time has given Mr. Roosevelt what Congress refused to give him when he proposed his Supreme Court enlargement measure—the right to staff the Court with Justices whose social and economic ideals paralleled his.

He has now appointed seven Justices, a record equaled only by Washington, who of course appointed the entire first Court, but it only numbered five Justices then. Mr. Justice Stone, a Coolidge appointee, who has been elevated to Chief Justiceship, has voted favorably on most New Deal legislation. Mr. Justice Roberts, a Hoover appointee, has a middle of the road record—he has voted for some New Deal laws, against others.

This Court will exert a great influence on the country for generations to come. Most of the members are young men. A long and important list of new precedents may be expected.

MOBILITY does it!

WE HEAR a lot these days about mechanized and motorized forces. . . But this is not a new idea. Have you ever noticed Illinois Bell Telephone line crews along the highway? These are mechanized, motorized units—each with skilled and seasoned men—each equipped with tools, power and materials.

It is because your telephone company prepares for possible emergencies in normal times—and because it can summon aid, if necessary, from any of the 23 other Bell System operating companies—that it can give you the efficient, low-cost and dependable service you expect. . .

SOCIETY EVENTS

Richard Luke Weds Kansasville Girl At Ceremony in Wilmot

The Rev. John Finan of the Holy Name church officiated at the marriage ceremony in Holy Name of Jesus church at eight o'clock Saturday morning which united in marriage Miss Mary Margaret McManis, daughter of Mr. and Mrs. Charles McManis of Kansasville, and Richard Francis Luke, son of Mr. and Mrs. Frank Luke of Wheatland.

Bouquets of roses, carnations and snapdragons decorated the church altar for the ceremony which was attended by only immediate relatives and close friends.

The bride wore a gown of white marquisette made with long full sleeves, high neckline and a long full train. She held a bouquet of white roses. Her father gave her in marriage.

Miss Arlene Luke attended the bride as maid of honor, dressed in a powder blue marquisette gown made with a full skirt, short puffed sleeves and Peter Pan collar. Her bouquet was of assorted roses.

Donald Luke attended the bridegroom as best man, and his ushers were John Kerkman and Thomas McGuire.

A dinner at noon followed the ceremony, and later a reception was held at the Luke home for 25 guests. Mr. and Mrs. Luke left on a honeymoon trip through northern Wisconsin and will make their home at Wheatland upon their return.

ANTIOCH WOMEN ENJOY VISIT TO ALASKA

Mrs. La Henry and Mrs. Bessy Kaiser write to Mrs. H. B. Gaston from Juneau, Alaska, "While in Fairbank, we met an Antioch boy who kept talking about the Gastons—George and Wetzell. We are enjoying a very interesting trip—now starting the homeward trend. After writing this aboard S. S. Alutian—we are due in Seattle the 25th."

RONALD HARDY JOHNSON HAS THIRD BIRTHDAY

Seven children were entertained at a birthday party given by Mrs. Milton Johnson at her home on Lake Catherine July 8 in honor of the third birthday anniversary of her son, Ronald Hardy. Games were played, and ice cream and a birthday cake served.

CHRISTIAN SCIENCE CHURCHES

"God" was the subject of the Lesson-Sermon in all Churches of Christ, Scientist, on Sunday, July 6.

The Golden Text was, "I am the Lord thy God, the Holy One of Israel, thy Saviour" (Isaiah 43: 3).
Among the citations which comprised the Lesson-Sermon was the following from the Bible: "I will extol thee, my God, O king; and I will bless thy name for ever and ever. Every day will I bless thee; and I will praise thy name for ever and ever. Great is the Lord, and greatly to be praised; and his greatness is unsearchable. One generation shall praise thy works to another, and shall declare thy mighty acts. I will speak of the glorious honour of thy majesty, and of thy wondrous works" (Psalms 145: 1-5).

The Lesson-Sermon also included the following passages from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy: "All substance, intelligence, wisdom, being, immortality, cause, and effect belong to God. These are His attributes, the eternal manifestations of the infinite divine Principle, Love. No wisdom is wise but His wisdom; no truth is true, no love is lovely, no good is, but the good God bestows" (p. 275).

Iron Discipline Is Abandoned by Army

Salute Off Post No Longer Required of Privates.

WASHINGTON. — Proceeding on the theory that discipline must be built upon the intelligence, sportsmanship, individuality and group cooperativeness of the men in the ranks, the army announced the abandonment of the rule requiring saluting of officers of post and made other changes in custom in a new manual of military courtesy and discipline.

Henceforth the salute is authorized, but not required, off post.

Soldiers in mess halls no longer will be required to stop eating and sit at attention when an officer enters. They will remain seated and continue eating, except in the case of a soldier who is addressed, who then must stop eating and remain seated at attention until the conversation is completed.

The army also stated the correct method of displaying the national flag.

Henceforth the flag should be to the observer's left when it is hung from a wall. On a rostrum it should be displayed above and behind the speaker's stand. Suspended across a street, the stars should always point east, or north, and not west or south. The manual prescribes that the flag should never be used as a drape for a platform, desk, chair or bench.

In training troops, according to the manual, officers should bear in mind that "modern warfare requires self-reliance in every grade; individuals capable of independent thought and action, who are inspired by a distinct feeling that as an individual or as members of a unit they are competent to cope with any condition, situation or adversary."

Weight Melts Away on Daily Diet of 20 Apples

TACOMA, WASH.—Miss Evelyn Appleton Lock is dieting. In 45 days she has reduced her weight from 166 pounds to 136. She says she will keep on dieting until she is down to 125.

Her diet is a source of delight to Washington orchard owners and to the surplus marketing administration and a source of argument among physicians.

Miss Lock is eating only apples—20 a day—with apple juice for a chaser. She got the idea in Yakima, Wash., where she visited there from her home in Indianapolis.

She reports she feels fine and that the apple juice puts an end to the appetite she blames for her previous weight. By way of precaution Miss Lock, 39, has a physical examination twice a week. Her blood pressure was between 170 and 180 at the start. It dropped to 120, her pulse dropped from 86 to 72.

Physicians are watching her diet with much interest.

Apple growers of Washington and the surplus marketing administration aren't worried too much about the medical aspects. To them, struggling with an oversupply of apples, the diminishing Miss Lock looms larger and larger as an "angel."

Anyway, These Deputies Admit They're Strong

BUTTE, MONT.—Here's the latest in diplomacy:

A Butte woman recently called the sheriff's office and asked for "two strong deputies, right now!"

After checking over their pistols, a pair of husky officers sped to the address.

"What seems to be the trouble here?" demanded one of the authorities.

"Well," replied the woman who answered the door, "I have a big cook stove I'd like to have moved upstairs."

The Observer

What we like about when the fire whistle blows is the way that everybody around here was coming out in high-heeled cowboy boots, the Madisonville Sidewalk Cattleman's association, drew up the following regulations:

A man must own at least two head of cattle before he is entitled to wear boots.

Owner of Three Head—Can stuff the right pants leg in.

Owner of Four Head—Can stuff both pants legs in.

Owner of Six Head—Can wear spurs.

Yippee!

Four Times Around World

If all the hides or skins used in America within any given year, for the manufacture of leather were placed end to end to form a carpet, it would reach four times around the world.

The Joseph Christopher James annual picnic was held at Fox River park Sunday. Ninety descendants of the James family were present. Ida (James) Osmond was elected president of the organization for the ensuing year.

AUTO VICTIMS FALL OUT OF TREES NOW

Herbert Linzell, 9, of August Ave., Long Lake, was given first aid treatment at St. Therese hospital yesterday and was permitted to go home after he fell from an apple tree on a moving automobile.

The boy was playing in the tree near his home at about 2:20 p. m. yesterday when he fell on the right fender of an automobile being driven by Stanley Kreller, of 3737 N. LeClair ave., Chicago. Kreller was picked up by Theodore Weiland, of 903 Ridge St., Evanston, and Mrs. Richard Shields of Ingleside, who were near the scene, and removed to the hospital in Waukegan. After treatment for a gash on the left side of his head, the boy was taken to his home.

LONDON (UPI)—In peacetime a London hotel had only one trouble. The guests would steal the crockery, so a detective was employed. Stealing declined in wartime. During the last three months, only one article has been stolen at the hotel. That was the detective's hat.

And this one is straight out of Kipling—

Nairobi, Kenya Colony (AP)—Major Sir Henry John Delves Broughton, 57-year-old World war veteran, was acquitted today of a charge of murder in connection with the death of the Earl of Erroll, hereditary high constable of Scotland.

The Earl of Erroll, a widower was found shot through the head in an automobile parked on a moonlit road last Jan. 24 a few hours after he had left a dinner party attended by Sir Henry and his bride, Diana.

The couple was married in December at Durban, South Africa, and came to this British East African outpost for their honeymoon.

Texans Set Boot Styles By Size of Cowboy's Herd

MADISONVILLE, TEXAS.—Viewing with alarm the fact that virtually everybody around here was coming out in high-heeled cowboy boots, the Madisonville Sidewalk Cattleman's association, drew up the following regulations:

A man must own at least two head of cattle before he is entitled to wear boots.

Owner of Three Head—Can stuff the right pants leg in.

Owner of Four Head—Can stuff both pants legs in.

Owner of Six Head—Can wear spurs.

A depth bomb does not have to make a direct hit to sink a submarine. Hills are unnecessary as the water-transmitted shock of a nearby explosion will buckle the submarine's plates.

Yesterdays

35 YEARS AGO
In the Antioch News
July 12, 1906

A very pretty home wedding was celebrated Monday evening when Miss Ida Slagel and Lyle R. Hughes joined hands for life.

The village of Wauconda on Saturday night came close to being wiped from the map by a fire which for a time gave every promise of assuming large proportions and which was stopped with great difficulty. As it is, the old Spencer mill, a landmark of some forty years' standing, is a mass of ruins.

Fred Whitney's 85-foot submarine.

the Lake, the largest ever built in this country, made a successful 325 mile run from Norfolk to Atlantic Highlands, N. J. This is the longest continuous sea trip made by a submarine. The Lake is driven by a gasoline engine of 250 horse-power and has auxiliaries for electric lights and other purposes of 130 additional horse-power.

President Theodore Roosevelt delivered a notable Fourth of July address at Oyster Bay, in which he discussed trusts and the attitude of the administration toward them.

In his talk the President said: "This year in Congress our chief task has been to carry the government forward along the course which I think it must follow consistently for a number of years to come—that is, in the direction of seeking on behalf of the people as a whole, through the national government which represents the people as a whole, to exercise a measure of supervision, control and restraint over the individuals and especially over the corporations of great wealth, insofar as the business use of that wealth brings it within the reach of the federal government."

"We have accomplished a fair amount and the reason that we have done so has been, in the first place, because we have not tried to do too much, and in the next place, because we have approached the task absolutely free from any spirit of rancor or hatred."

"In any such movement a man will find that he has allies whom he does not like. You cannot protect property

without finding that you are protecting the property of some people who are not straight. You cannot war against the abuses of property without finding that there are some people warring beside you whose motives you would frankly repudiate. But in each case he sure that you keep your own motives and your own conduct straight.

"When it becomes necessary to curb a great corporation, curb it. I will do my best to help you do it. But I will do it in no spirit of anger or hatred to the men who own or control that corporation; and if any seek in their turn to do wrong to the men of means, to do wrong to the men who own these corporations, I will turn around and fight for them in defense of their rights just as hard as I fight against them when I think they are doing wrong."

"Stand against him in no spirit of vengeance, but only with the resolute purpose to make him act as decent citizens must act if this republic is to be."

As a result of the Dupont Poser Company's refusal to grant an eight-hour day to its employees, the works at Wilmington, Del., are badly crippled by a strike, and members of the millionaire Dupont family are engaged in the dangerous task of driving powder-laden wagons from the mills to the magazines and storehouses.

Saturday night was a wild night in Waukegan when about 200 sailors stormed the police station, demanding the release of four sailors who had been arrested on a charge of stealing five gallons of ice cream from George Michaels, corner of Genesee and Water streets.

Daffy Messages To Draft Chiefs Leave Them Daft

Notes Seeking Information
Give Headache to Men
At Headquarters.

NEW YORK—If the boys who filled out their conscription questionnaires think that they had a headache they ought to read the thousands of letters daily seeking information from selective service headquarters in the nation's biggest city.

The local office released excerpts from some of the letters of a type which they said "brightens our day."

Here's one that stumped them:
"Please help me find my boy friend. I haven't seen him in two years. He has curly hair and blue eyes and is very handsome. He told me his name was Smith."
Board officials were just as puzzled as the writer of this conundrum:

"I was born in Omaha, raised in Pittsburgh and registered for selective service in Tampa. I made the mistake of giving Brooklyn as my permanent address. I have never lived there. Why is this?"
Leaves 'Em Gasping.

A couple more inquiries which left the officials gasping were the following:

"I have gallstones and my husband is in the hospital with kidney trouble. Must he go in the army?"
"Who has my number? I have insured my local bread and gotten very little information."

Some of the letters are demands by parents, such as these two:

"I want my daughter's fiancé inducted. He's only a chef and I want her to marry a dentist."
"My boy should be deferred, as he faints at the sight of blood. He nearly had a convulsion during the battle scenes in 'Gone With the Wind.' P. S. It was in technicolor."

Going-Away Discovery.
Some messages are purely informative—after a fashion:

"I registered in New York, then recently moved to Miami. While packing my trunk I discovered I am not of age. That is all."
"After four months of army life and much sober reflection I have decided that I cannot support my wife in the manner to which she has become accustomed on my army pay of \$21 a month. Kindly consider this my resignation from the armed forces."
The draft has raised even a mother-in-law problem, as this plaintive query shows:

"I am secretly married because my mother-in-law hates me. I have been classified as I-A, and have a very low order number. If I keep my marriage secret I will have to go to camp. If I announce my marriage I will have the old lady after me. What do you advise?"
Still in the unsorted file is this "Selective Service Headquarters. Dear Sir: Your points are ready. Please call for them at your earliest convenience."

Farmer Rises at 1 A. M.

To Call of His Cows

BLOOMINGTON, ILL.—Guy Hilton, operator of a dairy farm near here, is one milkman who more than upholds the early rising tradition of dairy farmers. The jangle of an alarm clock bell signals the beginning of his day at 1 a. m.

Hilton does not rise at this hour because he wants the honor of being the earliest of early rising milkers. He has a herd of 46 Holstein cows and the best of them will give 15 per cent more milk if they are milked three times a day.

Average quality milk cows are milked only twice daily, Hilton explained.

Hilton milks his best cows at 1 a. m., 9 a. m. and again at 5 p. m. "It isn't hard when you get used to it," Hilton said. "By going to bed early at night and taking a nap between 5 a. m. and 7 a. m. each morning I get as much sleep as the average dairyman."

Youth Coughs Up a Twig

That Eludes Surgeons

GREENSBORO, MD.—A year ago, 16-year-old Robert Thornton swallowed a cedar twig during the excitement of a baseball game.

Pleurisy developed from the poisons of the wood, then pneumonia set in. Eight bronchoscopic treatments failed to produce the twig and finally, in a delicate operation, the lower lobe of the lung was removed and a drainage tube inserted to save his life.

During all the treatments and operation no trace was found of the twig. The boy suffered a coughing spell recently—and coughed up the twig.

Diamonds Are Returned

But Thief Keeps Gold

LISBON.—A thief who stole a box of mounted jewelry from a woman sent a box of 102 diamonds to one of Lisbon's detectives with this note:

"Diamonds are dangerous to negotiate and I won't run unnecessary risks, but the gold will be sold easily and I am keeping it. . . . Release all the poor devils you have arrested in connection with this case."

When to Take Bath

For social freshness the bath should be taken in the morning, to cleanse away the perspiration salts and decomposed surface fats of the night. For a good night's sleep, however, a five minute soaking in a tub of warm or hot water just before retiring is usually helpful. A cold shower at bedtime is likely to produce wakefulness rather than sleep.

There is now available a washable paint in powder form that may be applied to the walls of a home at small expense. It comes in a number of attractive pastel shades suitable for living rooms and bedrooms. It is possible to use oil paint over it.

It's there with an Extra Wallop in reserve

SOMETIMES in your automobile you want zip and ginger, sometimes thrift.

Just name your choice. In this high-stepping Buick straight-eight with Compound Carburetion you can have either, each in its proper place.

You can go about your business in easy, ordinary, everyday travel—and this frugal, two-carburetor system will keep you rolling smoothly with only the forward, thrift-size mixer on the job.

Yet any time you want life, lift, super-power it's there with an extra wallop in reserve—just step down on the treadle and you've got it.

That simple move sends

the second carburetor into action; steps up not only fuel supply but the air supply as well.

Thus you have your fun—and frugality too. Owners report mileage figures as much as 10% to 15% higher than on previous Buicks of the same size.

Which means, better go look at the engine that's both thrill-packed and thrifty too. You'll find it in a bigger, roomier, smarter-looking automobile that gives you more value per dollar than anything else you can buy.

†Available at slight extra cost on Buick SPECIAL models, standard on all other Series.

Arizona Extends Solace to Ghosts Of the Old West

Territorial Prison Which Housed Many Toughies Now a Museum.

YUMA, ARIZ.—If the ghost of Pearl Hart, first "lady" stage robber of the old West, and that of Swede Rogers, as cool a murderer as ever fired a six-gun, are unusually unhappy today, there's a reason for it.

The old Arizona Territorial prison, which served as "home" for so many years to Lady Pearl, Rogers and scores of other toughies of the old West, has been converted from a grim showplace for tourists to a respectable and staid museum to house relics of days gone by.

But as far as old-timers were concerned, the new sign reading "Arizona Territorial Museum" wasn't at all needed to remind them of the stirring days of a half-century ago, for the stories of Lady Pearl and her rip-roaring companions will live on.

Prison Built in 1875.

The old adobe prison was established in 1875 when Arizona was still a territory. It was built of adobe and its walls ranged between four and eight feet in thickness.

Advocates of modern scientific means of criminal rehabilitation would gasp at the solitary confinement chamber—a small dungeon whose only ventilation was provided by a narrow hole running straight through the thick ceiling. Locked up there, the more recalcitrant prisoners became meek and repentant within a day or two.

The stories of Lady Pearl Hart and Rogers are the most romantic tales connected with the old prison.

Pearl was a dance hall girl who said she turned to robbing stage coaches because she needed money to return to the home of her invalid mother in Ohio. Arrested and sentenced to five years in the prison, Pearl decided to give officials as much trouble as she could—until a handsome young musician, convicted of a mining camp slaying, came to an adjoining cell.

Prisoners Fell in Love.

The story is that Pearl and the young musician fell in love, so Pearl chose to reform, get out of prison as soon as possible and aid in obtaining the release of her sweetheart. She became an assistant in the prison kitchen and her cooking so tickled the palates of the convicts that many of them (so the story goes) withdrew their applications for parole.

She was released before her five years were up, but the prison records unfortunately do not show whether she and her musician lover met outside prison walls.

Rogers, an arrogant murderer who professed to be a graduate of Oxford university, was one of the coolest figures of the old West. His dress was impeccable, but no one dared accuse the quick-shooting Rogers of being a dandy.

Little Girl Grabs Cow

Catcher, Saves Her Life

NILES, OHIO.—Eight-year-old Rebecca Villio is in a hospital with a broken leg, but relatives and friends say it was only her presence of mind which saved her from instant death under a fast freight train.

The little girl was going to church with a brother, two sisters and a friend when she was hit by the train while crossing the Pennsylvania railroad tracks.

Rebecca grabbed the cow catcher of the engine and clung on. She was carried 200 feet down the track before the engineer could stop the train.

When trainmen reached her Rebecca loosened her grip and fell to the ground. Her right leg had been broken and her left leg bruised—but that was all.

'Jump Happy' Parachutist Takes Leap in His Sleep

ATLANTA.—First Lieut. Gene Padgett of the 501st Parachute Battalion, Fort Benning, Ga., thinks he must have been "jump happy."

He made a leap last week, he says, and his chute didn't open. He reached for the emergency rip cord, and nothing happened.

Fumbling for the rip cord, he was startled to find he did not have on his jump suit.

"Landing on your feet is the correct way to jump," he mused—"I landed square on them, but I woke up on the ground 10 feet below the window of the bachelor officers' quarters."

He had been parachute jumping in his sleep.

Children Calmed in Beds Of 40 Wounded Soldiers

LONDON.—Forty children patients in a Cardiff infirmary began to cry when awakened by bombs during a recent raid. They cried still more when they had to leave their beds and go to a military hospital.

They were hurried to bed, but their crying went on. Then a nurse went to the next ward where wounded soldiers from Dunkerque were being treated and asked fathers to adopt the babies for the night.

The 40 children, still crying, were put in the men's beds and in a few minutes were asleep.

Nature will cool your house at night... if you give it a chance!

A complete change of air — in 3 minutes or less!

At sundown, open the downstairs windows and turn on the attic fan.

As the powerful fan pulls in cool night air, stale hot air is expelled.

In 3 minutes or less, the air in every room has been completely changed.

Let the coolness in with a —

NIGHT AIR COOLING SYSTEM

Provides an entire night of restful sleep for less than the cost of an ice cream cone.

Odd, isn't it, that during the summer we spend many a hot, sleepless night in houses that are entirely surrounded by cool night air!

But now, hundreds of families have found how to move that cool air indoors. It's done with a Night Air Cooling System. This is a wonderfully efficient method of driving out hot, stale air and replacing it with fresh night air, by using special fans that displace 10 times as much air as ordinary fans. Families who use this system marvel at how simple it is and how quietly it runs.

And they find it costs only a few cents a day to operate.

Fans can be had in Portable Models, ready for instant use in any room or in the attic, or in Built-in Attic Models, which can be permanently installed in a few hours.

...and Electricity is Cheap!

Ward Night Air Cooling Unit (Model UFC-26)

ONLY \$54.50

A compact, sturdy-built fan for use in the attic. Has powerful, rubber-mounted motor and dynamically balanced blades for maximum operating efficiency. Ask for complete details on construction and installation.

The ashes of Mrs. Mary A. Wright, formerly of Wilmot, who died last winter in New York, will be brought back to Wilmot for interment in the Wilmot cemetery on Thursday afternoon at two o'clock. The Wilmot chapter of Eastern Star will assist in the services at the graves. The commitment of the ashes will be made by the Rev. E. A. Wood, of the Salem M. E. church. In the event of inclement weather the services will be held at the Masonic hall in the village. The deceased was the widow of E. E. Wright and both were well known in Kenosha county and northern Illinois.

The sum of \$500.00 has been appropriated by the Illinois State legislature for the construction of a channel from Lake Marie to the village of Antioch and further improvements in the Chain of Lakes according to an amendment by the Illinois Division of Waterways. Twenty-five thousand dollars was recently appropriated by the legislature for the dredging of the Fox River between Algonquin and McHenry. A marine railroad will be established at the McHenry dam, over which the largest boats on the river or lakes can pass. It is possible for both improvements to be completed

before fall. With these improvements along the Fox river and the chain of lake completed in Illinois, anyone owning a motorboat at Wilmot will have access to Lakes Catherine, Marie, Bluff, Grass, Fox, Mistake, lake and bay, and Nippersink lake and south to the city of Algonquin, as the Wisconsin part of the Fox is navigable from the Wilmot dam to the state line.

Famous Muskellunge
Wisconsin's famous muskellunge, almost unique in the United States, had its 1940 planting figure increased over 1939 by 4,237,021 to a new year's total of 27,814,739. Twenty-two kinds of fish were hatched, reared, and distributed in Wisconsin waters in 1940, including the basses, the panfishes, stream trout, wall-eyed and great northern pike, and muskellunge. Experimental was a planting of muskellunge-northern pike hybrids. One new hatchery alone, in partial operation in 1940, will have a capacity production of 600,000,000 fish.

Gasses From Comet
Gasses thrown off from comets are methane, cyanogen and possibly sodium and nitrogen, but the gasses in any comet are very thin, and not concentrated enough to be poisonous.

Pull the Wool
"Pull the wool" over the eyes, means, proverbially to blind one's judgment. Hoodwink refers to the hood with which falcons were blinded and rendered tractable.

By E. L. Simons, Secretary.

Origin of Wedding Ring
The true origin of the wedding ring is unknown. Among some primitive tribes the man would weave a cord and bind it around the waist of the girl of his choice. In others women wore fetters around wrists and ankles, indicating that they had been captured by a certain man and belonged to him exclusively. The wedding ring is, perhaps, a hangover of one of these customs. In ancient times a circle represented eternity—no beginning, no ending. That was perhaps the reason for adopting the circle as the symbol of marriage—implying that it will last through eternity.

High School Graduate
The average age of the high school graduate is 17.28 years.

African Violet
The saintpaulin or African violet must be kept out of direct sunlight. The foliage is severely injured if sunlight falls on drops of water on the fuzzy surface of the leaves.
